

CUSTOM LAB PANELS

Comprehensive Metabolic Panel \$17

CMP can help doctors evaluate how well the liver, kidneys, and other organs are functioning, as well as detect any imbalances in the body's electrolyte and fluid levels.

CMP-14

Complete Blood Count \$17

CBC assesses red and white blood cell counts, hemoglobin, and platelets. It helps identify conditions such as anemia, infections, and blood clotting disorders.

CBC

Diabetes Risk & Cholesterol Test \$32

We made it easy to get answers about your risk for diabetes and heart disease with the Diabetes Risk (HbA1c) & Cholesterol Test.

TC, HDL, LDL, Trigs and A1c

Hemoglobin A1c \$17

Hemoglobin A1c (HbA1c) is a blood test that measures the average amount of sugar (glucose) in your blood over the past 2 to 3 months. It is used to diagnose and monitor diabetes.

A1c

Vitamin Deficiency Test \$169

Vitamin D plays a significant factor in bone health. Vitamin B9, also known as folate or folic acid, is important in red blood cell formation, healthy cell function and growth. Vitamin B12, plays a role in red blood cell formation along with cell metabolism, nerve function and DNA production.

Vitamin D, B12 and B9 (folate)

Know Your Numbers \$56

Comprehensive bloodwork looking at multiple systems to include cardiovascular, organ systems, sugar levels and blood counts.

Lipid Panel, CMP, HbA1c and CBC
